O R D E R:

In the U.O.Note first read above, the V&E Department requested the Chief Secretary to advice the Industries and Commerce Department to be more prudent before taking a decision on the law evaders in revision appeals and recommendations are as follows:

- (a) *In the light of the huge losses sustained by the Government by using the provision of revision under Rule 35(A), the Chief Secretary may advise the I&C Department to take all the facts put-forth into consideration before taking a decision on the law evaders in revision appeals.*
- (b) *It is once again re-iterated that no public interest is served by waiving off penalty amount, where in, the unscrupulous elements rob the state of its limited non renewable resources, allegedly in connivance with several agencies. The actual loss of natural resources cannot be estimated. The Government is requested to consider heavy penalty provision without waiver and repeat offenders to have their licenses cancelled.*

2. To implement the recommendations of the V&E Department the following aspects should be examined in detail.

1. The total Seigniorage Fee and penalty realized years wise since 2001
  - a. For the period when the penalty is (5)/(10) times.
  - b. For the period when the penalty is (1)/(2) times.
  - c. For the period from 01.10.2010 till date when the penalty is reverted back to (5)/(10) times.
2. Levy of penalty in different slabs ranging from 1 to "N" of times depending upon the gravity/nature of offence committed, restricting the maximum penalty to (5) times.
3. To formulate guidelines to be followed by the tax levying officials for arriving at the quantum of the penalty.
4. To substantiate the demand raised levying penalty by means of proper documentary evidence such as panchanamas, still photos wherever prohibited machinery is used, and any others useful methods.
5. Stringent punishment provisions on the officials of the department if one is found indulged in raising excessive or false demands as a measures of coercion or with a view to his personal gain (This is one of the complaints by most of the revision applicants during the hearings)
6. The aim should be not to punish a genuine one in the guise of controlling tax evaders or illegal mines
7. Any other aspect that needs consideration.
